

**Qualified Voter History File  
Freedom of Information Format**

<b>Field</b>	<b>Description</b>	<b>Max Length</b>	<b>Type</b>	<b>Content/Format</b>
1	voter id	38	numeric	Unique sequence number
2	county code	2	char	Unique sequence number
3	county name	40	varchar	
4	jurisdiction code	5	varchar	Unique sequence number
5	jurisdiction name	40	varchar	
6	school district code	5	varchar	Unique sequence number
7	school district name	100	varchar	
8	election date	10	datetime	
9	is absentee voter	1	char	Y= yes N= no

Export files will be in .csv format. The .csv file for the entire state will be too large to open in Microsoft Excel or Notepad.

In order to view the file, you will need a text editor that can open files with approximately 7.5 million rows (one election) or 36 million rows (all available elections) OR you will need to import the file into a database.
